Drawing Tools

Try some annotation and drawing tools!

 **(Edit Objects):** You can freely edit selected object, such as image, text and shapes.

 **(Add Image):** You can add image object to a specific page.

 **(Add Shapes):** You can add shapes object to a specific page.

 **(Add Text):** You can add text object to a specific page.

Edit Tab

Form Tab

Form Tab menu items:

- Automatically Recognize Form Fields
- Designer Assistant
- Create Push Button
- Create Check Box
- Create Radio Button
- Create Combo Box
- Create List Box
- Create Text Field
- Create Signature
- Create Image
- Create Date
- Page Template
- Edit Static XFA Form
- Calculation Order
- Add Tooltip
- Highlight Fields
- Reset Form
- Export form data to spreadsheet
- Import Form Data
- Export Form Data
- Keep Tool Selected

You can protect your PDF files by signature, password, and redaction.

(Try to add signature into the above box)

 **(Ink Signature):** The ink signature tool allows you to draw your own style signature and place it on your document. You can create a list of signatures for different use cases.

 **(Password Protection):** You can add a password to a PDF to limit access and restrict certain features, such as printing, copying and editing.

 **(Redaction):** The redaction tool enables secure and irrecoverable removal of sensitive, confidential or privileged text or graphics from PDF document. You are able to mark the text or graphics for redaction first, and then apply the redaction.

Protect Tab

Portfolio Tab

PDF portfolios are a combination of files with different formats such as Word Office files, text documents and Excel files. When opening a PDF portfolio, you will see the Portfolio tab.

(Layout): show layout of files in portfolio.

(Details): show details of files in portfolio.

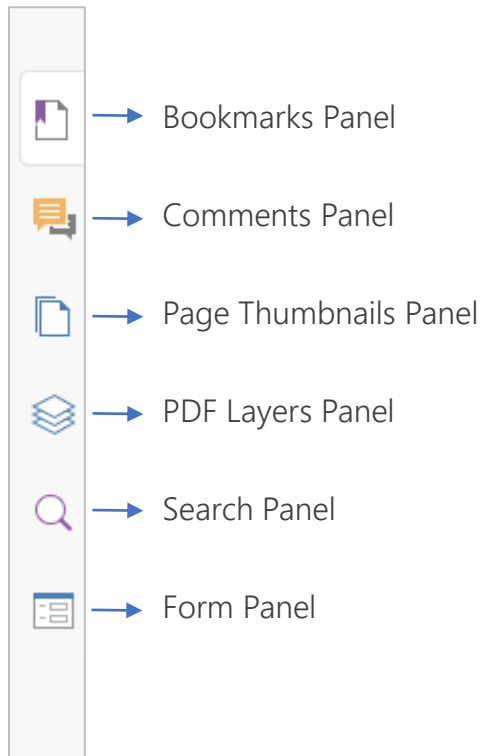

(Cover Sheet): show cover sheet of portfolio.

(Preview Pane): show, hide or change the layout of the preview pane.

(Default View): set default view for PDF portfolio.

Bookmarks Panel is used to add, remove and manage bookmarks. Bookmarks are useful for users to mark a place in a PDF file so users can return to it with ease.

Comments Panel displays all comments in the PDF so that users can easily view and find the comments.

Page Thumbnails Panel is used to view page thumbnails and re-order PDF pages.

PDF Layers Panel is used to show or hide related content stored in a variable number of separate layers.

Search Panel is used to quickly find specified text that you are looking for.

Form Panel: is used to manage form fields.
